

ALMOND-BANCROFT SCHOOL DISTRICT
Board Policy Manual

751.3

EXTRACURRICULAR TRANSPORTATION

Transportation to and from school-sponsored activities shall be arranged by the building principal and/or the District Administrator at the request of the advisor of the group/organization involved. Once the method of transportation is determined, all students involved will be transported in that manner.

If possible, students should be transported to and from school-sponsored activities in a School-Board authorized transportation company vehicle. Transporting students in private vehicles should be considered only when bus transportation does not seem reasonable and/or appropriate, and will only be allowed in accordance with legal requirements and established District procedures. At no time will students be allowed to transport other students for school-sponsored events.

The District is concerned for student safety and will take reasonable measures to help ensure that students are transported safely to and from school-sponsored activities.
